INFRASTRUCTURE CLUSTER

Dedicated Bare-Metal

Hetzner Fast-IO · trudealers.com

We have completed the scheduled migration of the TruDealer ecosystem to our new **high-performance, bare-metal server cluster** on the unified trudealers.com domain. This architecture upgrade replaces shared cloud hosting with dedicated enterprise hardware, delivering instant speed and zero platform friction.

0.4s

Instant Photo Processing

High-speed NVMe image caching with zero queue latency.

0 ms

Zero Cold Starts

Always-on dedicated hardware eliminates cloud sleep delays.

Instant

TransUnion / M&M Sync

Local fast-path queries for valuations and vehicle specs.

99.99%

Enterprise Uptime

Hardened daily automated backups and SSL failover.

MANDATORY ACTION: DELETE OLD APP ICONS & SAVE NEW LINKS

Previous bookmarks and home-screen shortcuts pointing to *.tru-saas.com or Render cloud are retired. **Please remove/delete old shortcuts** from your phone and desktop to avoid cached routing conflicts, then save the new official links below.

1. Delete old app icons

2. Open new URLs below in Chrome / Safari

3. Tap "Add to Home Screen" or "Install App"

4. Enter Dealership Passcode once

YOUR UNIVERSAL PASSCODE

APX-7K9-W2M

Single-sign-on verification code for your dealership. Works across all authorized desktop and mobile applications.

AUTHORIZED APPLICATIONS & ENDPOINTS

2 Applications Active

PLATFORM	APPLICATION MODULE	PRIMARY URL (CLICK TO LAUNCH & SAVE)	PURPOSE
Desktop	TruInspect Desktop Manager Condition certificates, vehicle damage logs, printable customer VIR reports	https://inspect.trudealers.com	Appraisal Management
Mobile	TruInspect Mobile Walkaround Lot-side trade appraisal, 360 damage mapping, tyre depth check, offline sync	https://inspect.trudealers.com	Mobile Inspections

★ Pro-Tier Deployment Notice:

Your full Pro-Tier suite — including your custom high-converting interactive showroom website, TruLens photo studio, and central TruFlow DMS — will be reviewed together during our scheduled meeting on Monday. Your **TruInspect** condition and appraisal suite is 100% active immediately on the new server cluster below.
