

PREPARED FOR YOUR CAR GUY • YOURCARGUY.CO.ZA

Your cars are findable. *Your business isn't.*

Every vehicle page on your site already tells the answer engines your price, mileage, year and condition — that's the hard part of a dealer website, and it's done. But when a buyer asks an assistant about you, your site stays silent. No dealer entity. No FAQ. No reviews. No guides. This report shows you the gap — and hands you the fixes ready to paste.

THE SCORECARD

OUT OF 5 • CHECKED 16 AUG 2026

Vehicle data • Car schema

★★★★★

Price, mileage, year, brand, model — structured, on every listing.

Business entity • AutoDealer

★★★★★

Missing entirely — the single biggest gap in this report.

FAQ • question answering

★★★★★

No FAQ content or schema anywhere on the site.

Informational content

★★★★★

31 cars, zero guides or comparisons. Nothing for AI to cite.

Reviews • trust signals

★★★★★

Testimonials exist, but no Review or rating schema on them.

Titles • meta

★★★★★

Homepage title is just "Your Car Guy". og:title is empty.

Crawl-ability

★★★★★

Clean sitemap, robots.txt, canonicals. No crawl blocks.

BOTTOM LINE • 2.5 OUT OF 10

Good bones, no answer-engine presence. The fixes are copy-paste, not a rebuild.

WHAT'S HOLDING YOU BACK

Three issues cost you buyers. *The rest cost you trust.*

● CRITICAL · COSTING YOU BUYERS

1 The business is invisible to AI. No AutoDealer schema.

Homepage and contact pages carry zero structured data. Engines can't confirm you're a dealer at 17 Burt Drive, Newton Park — so "who sells used cars in Port Elizabeth" never includes you.

2 No FAQ, anywhere.

Warranty, finance, trade-ins, delivery, test drives, after-sales — none answered in a form AI can quote. The assistant makes the answer up, or quotes a competitor.

3 Zero informational content.

No guides, no price pages, no comparisons. When AI answers "used Toyota Corolla price in South Africa", it cites AutoTrader and Cars.co.za — never you.

● HIGH · COSTING YOU TRUST

4 Vehicle schema is incomplete. No condition, transmission, fuel, colour or seller — and "In Stock" is hardcoded even on sold cars.

5 Weak titles. Homepage title is just "Your Car Guy" — no location, no keywords. og:title on the homepage is empty.

6 No review schema. You have a testimonials page — but no stars, no AggregateRating, so AI can't cite "X buyers recommend them".

● MEDIUM · MINOR CLARITY ISSUES

7 · og:type is "article" on vehicle pages — it should be "product".

8 · No coordinates. Address is text only — local AI can't plot you on a map.

FIX 1 · THE BUSINESS ENTITY

Make yourself *answerable*.

One block of code on the homepage and contact page tells every engine who you are — a used-car dealer in Newton Park, your phone, your hours, your location. Fifteen minutes, copy-paste, into the <head> via Rank Math or a code-snippet plugin.

⚠ **Before you publish:** confirm the postal code, GPS coordinates and your exact Facebook/Instagram URLs — then make the NAP and hours identical to your Google Business Profile. A mismatch makes engines distrust the entity, which is worse than none.

WHY IT MATTERS

Answer engines cite you for **"who sells used cars in Port Elizabeth"** — instead of a competitor.

Buyers get a confirmed **legitimate dealer** verdict when they check you against AI.

Local queries pull your **address, phone and hours** — the contact they need to book a drive.

FIX 2 • FAQ + FAQPAGE SCHEMA

Answer the questions buyers ask *at 2am.*

A short FAQ on the homepage — each question, one honest answer. Then wrap the block in FAQPage schema and the assistants quote you verbatim. Ten questions, all of which buyers actually ask before they call.

Do you offer a warranty?

Yes — with our vehicles. Contact us for the term and cover per car.  **confirm terms**

Can I finance a used car?

Yes. Our "Check affordability" widget pre-qualifies you in 60 seconds, no impact on your score.

Do you take trade-ins?

Yes — we value your current car against the one you're buying.

Do you buy cars for cash?

Yes — visit our "Sell Your Vehicle" page and we'll make you an offer.  **confirm process**

Can I test drive?

Yes — by appointment at the showroom.  **confirm booking**

Do you deliver?

 **confirm** — do you deliver to other cities, and at what cost?

After-sales support?

 **confirm** — backup lights, licensing, post-sale support.

Where are you?

17 Burt Drive, Newton Park, Port Elizabeth. Mon–Fri 07:30–17:30, Sat 07:30–13:00.

Are your cars inspected?

Every vehicle is photographed, checked and graded before it's listed.  **confirm process**

Finance options?

Bank finance plus instant pre-qualification through our affordability checker.

 **Five answers need your policy confirmed** (warranty terms, cash-buy process, test-drive booking, delivery, after-sales). We never let AI answer what the business hasn't confirmed — confirm these, then the FAQPage schema wraps the block and the assistants quote you.

FIXES 3-6

Give the engines *something to quote.*

FIX 3 · CONTENT HUB THE TRAFFIC AI OVERVIEWS CITE

How much does a used Toyota Corolla Quest cost in South Africa?

Ford Ranger vs Toyota Hilux — which used bakkie should you buy?

Best used SUVs under R400 000 in South Africa

Toyota Land Cruiser 70-series price guide

Is a used Ford Everest reliable? What to check

How to finance a used car in South Africa

Trade-in vs private sale — which pays more?

How to check a used car's condition before you buy

Each links back into your filtered inventory — every guide is a doorway into your 31 cars. Start with three or four; the rest can wait.

FIX 4 · VEHICLE SCHEMA MAKE EACH LISTING RICHER

itemCondition: UsedCondition — engines read "used", not generic.

seller → points back to your AutoDealer entity.

Transmission, fuel, body type, colour — pulled from your real vehicle fields.

SoldOut when a car sells — never quote a price on a car you no longer have.

FIX 5 · TITLES SAY WHAT YOU ARE

Homepage title: Your Car Guy | Used Cars in Port Elizabeth & Newton Park — and a meta description that says "finance, trade-ins and cash offers, 17 Burt Drive, Newton Park, call 083 465 9921."

FIX 6 · REVIEWS MAKE THE TRUST COUNT

Add AggregateRating to your testimonials page — real numbers only. Stars in search, and "X buyers recommend them" in AI answers.

THE PLAN · ONE AFTERNOON, MOST OF IT

Fix the money issues today. *Build the content this month.*

PRI	TASK	EFFORT	WHERE

HOW WE VERIFY IT WORKED

1 · Rich Results Test each changed URL — AutoDealer and FAQPage must pass.

2 · Ask an assistant "What do you know about Your Car Guy, Port Elizabeth?" — it should now answer with your address, phone and FAQ facts.

3 · Re-audit in 2–4 weeks for AI Overviews presence on your target queries.

NEXT STEP · ONE HOUR, YOUR OWN STOCK

Thirty minutes on your site. Then the engines answer for you.
